PROFESSIONAL SUMMARY

Result-oriented Software Developer specializing in building scalable backend services and responsive web applications. Hands-on expertise in Java (Core & Advanced), C++, Spring Boot, Spring Data JPA, Hibernate, RESTful APIs, and MySQL, paired with dynamic frontend development. Demonstrated proficiency in non-blocking API integrations using Spring WebClient and Gemini API, secure authentication via Spring Security & JWT, and robust unit testing with JUnit & Mockito. Strong foundation in Computer Science fundamentals (DSA, OOP, DBMS, OS) with 250+ solved challenges on LeetCode.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core & Advanced, Collections, Multithreading), C++, Python, JavaScript (ES6+), SQL, HTML5, CSS3
- **Backend & Frameworks:** Spring Boot, RESTful APIs, Spring Data JPA, Hibernate, Spring Security, JWT, Spring WebClient
- **Database & ORM:** MySQL (Relational Schema Design, Indexing, Query Optimization, Joins, ACID Properties), Hibernate ORM
- **Testing & Build Tools:** JUnit, Mockito, Maven, Postman, Git, GitHub (Version Control), IntelliJ IDEA, VS Code
- **Core CS Fundamentals:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

KEY TECHNICAL PROJECTS

AI Resume Analyzer | Java, Spring Boot, WebClient, Gemini API, MySQL, JavaScript *GitHub Link*

- **Architected RESTful Backend:** Engineered a scalable REST API using Spring Boot, JPA, and MySQL to evaluate and benchmark candidate resumes against job descriptions with 95%+ keyword accuracy.
- **Asynchronous API Integration:** Utilized Spring WebClient to manage non-blocking communication with Google Gemini LLM API, reducing external request latency by 35% and preventing thread exhaustion.
- **Data Parsing & Metrics:** Implemented custom DTO schemas and robust JSON parsers to transform complex AI model feedback into structured ATS scores, missing keywords, and actionable metrics.
- **Interactive UI & Testing:** Developed an interactive UI using JavaScript and DOM manipulation; wrote unit test suites using JUnit and Mockito to validate core parsing services.

Smart Research & Content Assistant | Java, Spring Boot, Google Gemini API, WebClient, REST APIs, JSON *GitHub Link*

- **Modular Layered Architecture:** Designed decoupled Controller-Service-Repository architecture delivering automated document summarization, multi-language translation, and key-point extraction.
- **Security & Resilient Fault Handling:** Implemented secure API credential management via environment variables (OWASP compliance) and built fallback exception handlers achieving 99% reliable API transaction execution.

EDUCATION

Bachelor of Computer Applications (BCA) | D.S. College, Aligarh (RMPSU) *2022 - 2025*

Cumulative GPA: 8.2 / 10.0 | Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode Problem Solving:** Solved 250+ DSA problems covering Arrays, Linked Lists, Trees, Graphs, and Dynamic Programming.
- **Java Full Stack Specialization:** Completed rigorous training covering Core/Advanced Java, Spring Boot, Hibernate, REST APIs, and Relational Database Systems (AccioJob).
- **1st Position Award:** Secured 1st Place out of 100+ participants in the 7-Day Employability & Technical Skills Development Program.
- **National Skill Development Corporation (NSDC):** Certified in Domestic Data Entry & Information Management (India Recognized).
